The image shows a Visual Studio Code editor window with the file 'main.css' open. The code defines styles for a web page. The 'body' is set to 100% width and height, with a white background and a linear gradient. The 'h1' is positioned absolutely in the center with a large font size and a thick white border. The status bar at the bottom indicates 'Ln 4, Col 2'.

```
# main.css > *
