GONZALEZ

5-PM

# CODIGO

The image shows a developer's environment with two main windows. On the left is a screenshot of the Visual Studio Code (VS Code) interface. The current file is 'cambiaColor.php' located in the 'cambiaColor.php' folder under 'ACTIVIDAD4'. The code displays a simple web page with three buttons: 'Red', 'Blue', and 'Green', each changing the background color of a central h1 element. On the right is a screenshot of a GitHub profile page for 'Caradan1'. The profile includes a bio, a checkmark icon, a 'Set status' button, an 'Edit profile' button, and a note that the user joined 28 days ago. Below the bio are sections for 'Popular repositories' (showing 'Desarrollo-web-' which is a CSS repository), '9 contributions in the last year' (a heatmap showing activity from May to October), and 'Contribution settings'. The GitHub URL is 'github.com/Caradan1'.
